mckenzie partners are one of the leading motor advertisers in sydney. in my time at mckenzie, i have been involved in all facets of jobs, from briefing, right through to preparation and sending files to print. i have also worked on websites, newsletters & flyers.

**previous employment.** *designer/creative, pulp advertising and publishing - pyrmont*  
i started at pulp in august 2006. in my short time in this position, i learned to take jobs from brief to print. this included receiving a brief from a client, design and layout, creation of print ready artwork, communication with printers and sending the final job to print.  
i am no longer at this company as they lost a number of large clients and, with the loss of revenue, they could not afford to keep me on. i got on well with everyone at pulp and was told that they are very disappointed to have to let me go. this can be verified by calling catherine garbin (art director - pulp) on 02 95717688.

*designer/creative, amba communications - st leonards*  
i held this position from january 2004 to august 2006. i started as a junior designer/mac op, and worked my way up to be a midweight designer/art director.  
in my time at amba i worked on a wide variety of jobs including packaging, advertising, point of sale, website design and development, corporate id, new product development, brochures and more.
